

descalo plus

RUST & SCALE REMOVER

Descalo plus is a complex blend of chemical agents designed for the removal of soluble rust and scale deposits.

PRODUCT FEATURES:

- Very easy to use. Just Spray on affected surface or for best results dip part in the solution.
- The used solution can be recycled further when used as dip method thus saving material costs.
- For areas not heavily corroded, the system may be diluted (3 parts descalo plus : 1 part water) further.
- Quick acting system. The reaction starts immediately and the result obtained within a short time.

DIRECTIONS FOR USE :

- Wipe off excessive rusty layers and scales as far as possible with the help of a wire brush.
- Apply descalo plus on the affected portion and retain on surface for as far as possible, either by continuous spraying or by keeping the part under cotton wool soaked with the solution. Dipping if possible gives best results.
- Surface rust dissolves completely while scales loosen under the action of the solution. Light chiseling would give way to the adherent scales.
- To prevent rust from appearing back on the surface, clean the part with water and then dip in Aqua 3-in-1 which will give a protective phosphate coating to the metal. Aqua 3-in-1 may be used directly to remove rust and greases but the action takes a longer time. On areas which are rusty as well as greasy the use of Aqua 3-in-1 is preferred.

PACKING :

Descalo plus is available in 5 Lts, 20 Lts and 40 Lts packings or bulk.

HANDLING PRECAUTIONS

Though safe to use prolonged or repeated contact with the skin should be avoided. Wash exposed areas with soap and water. Remove contaminated clothing immediately, wash thoroughly before reuse. Keep chemical away from sparks or open flame.
